
Asif Mahammad

Java Developer

Portfolio: - <https://assii27.github.io/My-Portfolio/>

Mob No: 8261991003

Email ID: dev.asifmaner@gmail.com

City: Pune

Profile:

Java Developer with over 5 years of experience in designing and developing scalable backend applications in the **Payments** and Switching **domain**. Skilled in Card Systems, **transaction processing**, and secure financial data handling.

Proficient in **Java, Spring Boot, Microservices, Hibernate, Kafka, REST APIs, MySQL, and Elasticsearch**, along with **AWS** services like **EC2, S3, and CloudWatch**. Experienced in implementing search and indexing solutions, production support, **debugging, RCA**, and performance optimization in high-availability environments.

Strong understanding of **SOLID** principles, clean coding practices, and delivering reliable, secure, and high-quality solutions.

Professional Experience:

Software Developer-Java | **Euronet Services Pvt Ltd, Pune.**

March-24 to Nov-25

Payment Domain | **Issuer Side of Switch System.**

Roles & Responsibilities

- Developed and maintained backend applications using Java 8+ and Spring Boot.
- Built and improved RESTful APIs and microservices for banking and payment systems.
- Worked on Card Management System (CMS) features, including card issuance, activation, blocking, replacement, and transaction processing.
- Handled real-time payment transaction flows in the Switch System (REN Product) to ensure smooth and secure operations.
- Integrated and managed messaging workflows using Apache Kafka for event-driven communication between services.
- Deployed and monitored applications on AWS using services like EC2, S3, and CloudWatch.
- Participated in debugging, fixing defects, root cause analysis (RCA), and production support activities.
- Followed Agile/Scrum methodology by taking part in sprint planning, daily stand-ups, reviews, and retrospectives.
- Used tools like IntelliJ IDEA, STS, Git, GitHub, SourceTree, and Jira for development, version control, and task tracking.
- Supported UAT and production environments by resolving issues, monitoring application health, and ensuring system stability.

Domain: - Banking Domain

Roles & Responsibilities

- Developed and maintained Java-based backend modules for a Banking Admin Application that banks use to manage and update customer information.
- Built registration modules for both individual customers and corporate clients, supporting the full registration process.
- Designed and developed menu and submenu management features to control service configuration and dynamic user interface behaviour.
- Implemented secure transaction logging to record and monitor all banking activities.
- Designed business logic using Java, Spring Boot, Hibernate, and object-oriented programming (OOP) principles to ensure system reliability and scalability.
- Managed MySQL database operations, including query optimization, stored procedures, and general data handling.
- Debugged code, analysed defects, and performed root cause analysis (RCA) to improve system performance and stability.
- Worked on application maintenance, feature enhancements, and production support tasks.
- Used Git for version control and Jira for sprint planning, task tracking, and workflow management.

Technical Skills

Programming Languages: Java 8+, Core Java

Frameworks: Spring Boot, Spring Data JPA, Hibernate

Architecture: Microservices Architecture, RESTful APIs

Messaging: Apache Kafka

Databases: MySQL

Cloud: AWS (EC2, S3, CloudWatch)

Data Formats: JSON, XML

Version Control: Git, GitHub, Git Bash, SourceTree

Tools & IDEs: IntelliJ IDEA, Spring Tool Suite (STS), Maven, Postman

Project Management: Jira, Agile/Scrum

Monitoring & Support: Application Monitoring, Production Support, RCA

Domain Expertise: Banking, Payment Systems, Card Management Systems (CMS), Transaction Processing.

Education (Graduation)

Bachelor of Engineering (B.E.)

Shivaji University, Kolhapur

Score: **68%**

(First Class with Distinction)

Declaration:

I hereby declare that the above information is true and correct to the best of my knowledge and belief. I assure that if given an opportunity to work in your organization, I will put in my best efforts to contribute to the growth of the company.

Asif Maner (A.M)
